- Outside the box thinking
- A strong team player

# Christiyan Borisov

JavaScript | UX/UI design | Web design

Veldhoven, North Brabant, Netherlands

## Summary

I'm a fourth semester Fontys ICT & Media Design student, currently specializing in Smart Mobile. My passion is developing digital experiences that are both user-centered and aesthetically pleasing. I have an in-depth experience with the Adobe Creative Cloud, HTML, CSS, JavaScript, Blender, GIT, Figma, Axure Studio RP. I have completed coursework in user research, information architecture, responsive design, prototyping and testing and Progressive Web App (PWA) development. My firm belief is that my enthusiasm for Front-End and UX design, along with my eagerness to learn and soft skills, would help me succeed in any design-related internship position.

## Experience

### Lidl Nederland

Employee in Lidl Lievendaalsweg

October 2023 - Present (1 month)

Eindhoven, Netherlands
